Always Here to Help

For companies and organisations, the safety and security of the people who visit and work at their locations is top priority. As physical distancing becomes a routine part of our day-to-day operations, Sodexo helps you rise with confidence and assess the changes that could improve the health and wellbeing of everyone you serve. We provide a complete package to help you manage people’s behaviours and help build confidence around safe workspaces.

We take a systematic and consultative approach, crafting a plan with clear guidelines and processes to support our local on-site teams to answer the needs of both our clients and consumers. It starts with a risk analysis and review of your current processes to identify the changes that will make positive, meaningful impact, keeping individuals safe and your business operating at peak capacity.

PROTECT | CHANGES TO SUPPORT PHYSICAL DISTANCING

Reduce Contaminant Spread
Optimise Common Spaces and Circulation
Improve Building Access Control

39% of employees are concerned about returning to work – illustrate your focus on safety

Reimagining what togetherness looks like
Providing a new way to interact with each other

Day in and day out, our mission is to engage our clients, support them and provide new ways of circulating and interacting with each other in their environment. With our physical distancing support programme, every part of your facility will be analysed and solutions will be implemented to ensure limited proximity contacts.

- Reduce Contaminant Spread
  - Implement sneeze guards
  - Offer contactless payment
  - Provide pre-packed food options

- Optimise Common Spaces
  - Change seating arrangements to support 2 metre/6 foot distances*
  - Establish foot traffic flow and guidelines
  - Post clear signage of physical distancing expectations

- Improve Building Access Control
  - Establish entrance monitoring with security team
  - Optimise reception protocols

*subject to local authority regulations
